10. Please explain your rating above about AI's impact on your learning for this submission. (Write in 2-3 sentences) * 

React + vite was incredibly challenging to learn and apply to this degree, so having a virtual tutor to help explain various things was crucial. This was just way to much initially, and I feel that if I didn't have the examples and insight that my preferred LLM provided, our project wouldn't have gotten off the ground. That said, I only modified and added to the examples that I asked my LLM to generate, therefore requiring me to progress at the rate of my understanding.
