10. Please explain your rating above about AI's impact on your learning for this submission. (Write in 2-3 sentences) * 

Much of what was needed for this project was new to me, and learning from scratch proved to be quite difficult. I used AI to help me understand what I needed, and I used that to write my code.

13. How did you ensure the answer you received from the AI tool was correct? * 

Trial and error, which continued to add to my understanding of what worked and what didn't. I also cross referenced certain code that the AI used with documentation from other sources, like Vitest.

14. Did you at any point abandon using AI tools and seek other resources? Explain your answer.
(optional) 

What made you abandon using the AI tool? Were you more successful using other resources? Input N/A if you have not used any
