10. Please explain your rating above about AI's impact on your learning for this submission. (Write in 2-3 sentences) * 

I'm terrible with writing presentation scripts, so I needed an initial structure that I could use as inspiration. I know what I want to say, I'm just so uncertain as to what order or orientation certain points should be discussed in.

13. How did you ensure the answer you received from the AI tool was correct? * 

I only used my LLM to provide me with two structural examples that my slides and points could be held within, so there wasn't really anything unique that it was doing. The content came from my own thought processes and notes that I have compiled over the course of my groups development cycle

14. Did you at any point abandon using AI tools and seek other resources? Explain your answer. (optional) 

What made you abandon using the AI tool? Were you more successful using other resources? Input N/A if you have not used any

16. Please explain your ratings above, especially if you have AI tools for "other" types of work. * 

I can't identify any "other" tasks that would have been taken over by my LLM. There wasn't very heavy editing that went into this as well, so that was also entirely me.
