

CMPT 276 - AI Disclosure Form - Summer 2025

Why this survey? This disclosure form aims to *help us understand and reduce any potential risks* related to the use of AI tools in this course.

Please complete the survey **by yourself** and be **truthful**. *Using AI tools will not negatively affect your marks for the assignment/lab/etc.*

What do we mean by AI tools in this survey?

AI content generators refer to any tools that create any type of content, including (but not limited to):

- ChatGPT and all other large-scale language models;
- Stable Diffusion and other AI-based Image Generators;
- Code extensions for IDEs;
- Other tools that are capable of generating text, image, codes, or any other content for the course work. BUT, Grammarly and other grammar checkers are NOT included.

For more information on our policy, please refer to: <https://parsa-rajabi.github.io/CMPT-276/#/ai-policy>

1. First Name (as appears on Canvas) * 

Tyrese

2. Last Name (as appears on Canvas) * 

Temple

3. Student ID * 

301607965

4. Which assignment/lab/project submission is this AI use disclosure for? * 

Project submissions are included as "MX" aka Milestone X, where X is the milestone number

M0

5. How do you feel about using AI content generators in relation to your personal standards of academic integrity for this submission? *

	Completely Acceptable	Somewhat Acceptable	Neutral	Somewhat Unacceptable	Completely Unacceptable
In my personal standard of academic integrity, using AI content generators for this submission is...	☐	☒	☐	☐	☐

6. Please explain your rating above regarding academic integrity of AI use for this submission. Why? (Write in 2-3 sentences) *

AI should be used as an inspirational tool, or to assist in understanding a new topic that may seem overwhelming initially. If output is instead taken directly from an LLM and used without modification and proper interpretation, the learning that could have been made is lost, which defeats the purpose.

7. Did you use AI tools for this submission? *

☒ Yes

☐ No

8. For this submission, how would you rate the relative contribution made by your versus AI? *

	Mostly by myself, some contribution by AI	Evenly split between myself and AI	Mostly by AI, some contribution by myself	Entirely by AI, no contribution from myself
This submission is...	☒	☐	☐	☐

9. How did using AI content generators impact **your learning** for this submission? * 

	Greatly benefited my learning	Somewhat benefited my learning	Had no impact on my learning	Somewhat hindered my learning	Greatly hindered my learning
Using AI content generators for this submission...	☒	☐	☐	☐	☐

10. Please explain your rating above about AI's impact on your learning for this submission. (Write in 2-3 sentences) * 

It's challenging to comb through 6 API's worth of developer documents and make sense of everything, especially when I've never even heard of half of the APIs that were selected for this project. My LLM was useful in contextualizing the technical descriptions of different API endpoints, features, and how this could be incorporated into our concept of a web application.

11. List the name all the AI tools that you used for this submission * 

Primarily Google's Gemini 2.5 Preview, but also duck.ai occasionally (which is a free model provided by the search engine DuckDuckGo).

12. How confident were you in AI's responses that you received? * 

- ☐ Confident
- ☒ Somewhat confident
- ☐ Neutral
- ☐ Somewhat not confident
- ☐ Not confident

13. How did you ensure the answer you received from the AI tool was correct? * 

I didn't want to ask too complicated of questions and potentially receive verbose answers, so I kept my queries relatively simple. I also provided as much contextual information as I could, and verified my answers with the information I had understood from the dev docs + any other videos or articles that discussed basic implementation of certain features I was interested in

14. Did you at any point abandon using AI tools and seek other resources? Explain your answer.
(optional)

What made you abandon using the AI tool? Were you more successful using other resources? Input N/A if you have not used any

I didn't abandon using AI tools necessarily, their usage just constituted a small percentage of my workflow. As mentioned earlier, some of the document pages included product videos that offered summarized explanations of core API features. These helped to get a general idea of what functions different APIs would be responsible for prior to delving into their respective

15. For each of the following items, how would you rate the relative contribution made by you versus AI? *

	Entirely by myself, no contribution from AI	Mostly by myself, some contribution by AI	Evenly split between myself and AI	Mostly by AI, some contribution by myself	Entirely by AI, no contribution from myself	Not applicable
Writing - Proofreading: To revise written work for grammar, typos, style, and other related items	☒	☐	☐	☐	☐	☐
Writing - Text Completion: To complete sentences, paragraphs or even entire documents	☐	☒	☐	☐	☐	☐
Writing - Text Ideation: To generate new ideas, concepts; and examples for writing submissions	☐	☒	☐	☐	☐	☐

	Entirely by myself, no contribution from AI	Mostly by myself, some contribution by AI	Evenly split between myself and AI	Mostly by AI, some contribution by myself	Entirely by AI, no contribution from myself	Not applicable
Text analysis: To make sense of text and generate insight as to what it means	☒	☐	☐	☐	☐	☐
Summary: To quickly understand large amount of text by extracting important information	☒	☐	☐	☐	☐	☐
Q&A + Research: To get answers from questions and find relevant information	☐	☒	☐	☐	☐	☐
Illustration/Sketching: To create visual representations of concepts and ideas such as diagrams, charts, illustrations	☐	☐	☐	☐	☐	☒
Coding - Write: To generate code by AI for software implementation	☐	☐	☐	☐	☐	☒
Coding - Test: To generate <u>code tests</u> by AI for software implementation	☐	☐	☐	☐	☐	☒
Coding - debug: To identify issues with existing code for software implementation	☐	☐	☐	☐	☐	☒

	Entirely by myself, no contribution from AI	Mostly by myself, some contribution by AI	Evenly split between myself and AI	Mostly by AI, some contribution by myself	Entirely by AI, no contribution from myself	Not applicable
Coding - explanation: To understand what a code snippet does for software implementation	☐	☐	☐	☐	☐	☒
Other: to help any other aspects of the submission not listed above	☒	☐	☐	☐	☐	☐

16. Please explain your ratings above, especially if you have AI tools for "other" types of work. * 

My answer for this section is very similar to what I've already said about my AI usage for M0. I largely modify the output to the occasional question I would ask, such that my end description or response reflects my understanding of the feature that I was discussing. Since my goal in carrying out my group's API research was to understand what I would be reporting, this was the

17. Please provide use this space to provide any other information that you'd like to disclose (optional)
